

If you are asked for the five-digit code that was sent to your phone upon logging in, check the **Recognize this device in the future** checkbox. If you are asked again next time you log in, you may need to adjust your settings:

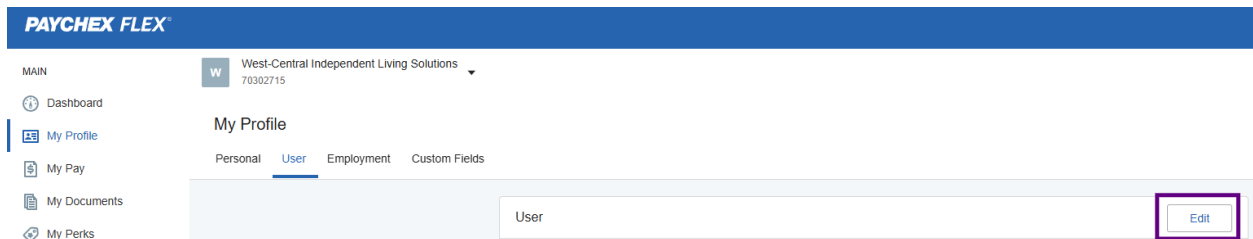

1. Navigate to the **My Profile** module.

2. Select the **User** tab.

3. Click the **Edit** tab.

4. Scroll down to the **Security Level** section—which isn't visible until you click the **Edit** button!—and select **Receive a verification code by phone only when required (recommended)** (recommended).
